Skill Level Evaluation Request Form

Note regarding "NEW" players: Pg 29, Sec 15 of the team Manual reminds you that "the skill levels of new players sometimes do not reflect their true ability due to the lack of scores. For the same reason, the skill levels of new players sometimes move around a little during the first few weeks. Please allow for this and hold your complaints concerning new players for a few weeks."

We are all aware that anyone can have a good day or make some good shots. However, we realize that some people do not achieve their correct skill level in a timely manner and some people try to manipulate their skill level. Player's input is an essential tool in minimizing manipulation of the *Equalizer*® Handicap System and we appreciate your taking the time to fill out this form.
